## EVENT COMPANIE

# Rally tasting in Obernai

### ITINERARY

Historic city centre of Obernai

### CHALLENGE

How can you visit Alsace without tasting the culinary specialities for which it is famous? Imagine a walk during which historical questions punctuate the tasting stages carried out blindly in the shops of renowned craftsmen : a cheese maker prepares a delicious **cheese** platter to be tasted (*3 varieties of cheese per person*), a pastry chef prepares coarse salt **pretzels** waiting to be crunched (*1 pretzel per person*), a baker makes you guess the weight of a **kougelhopf** and offers it to you at the end of the mission (*1 kougelhopf per team*), a waiter from Winstub offers you 3 glasses of **Alsace wines** on a platter waiting to be tasted! (*1 different glass of wine for each of the 3 tasters of a team*)

### DESCRIPTION

- The **experienced animator** presents a quick and amusing **history** of the city and **explains the course** of the rally
- The group is divided into **teams** of 5 to 8 members. You can form the teams according to the exchanges you wish to facilitate between participants
- A **roadbook** is given to each team. It contains **historical information**, the **itinerary** and **questions** related to the challenge
- Teams do the same rally but on different itineraries in order to avoid them following each other.
- The rally is run **autonomously**, however, the **animator can be reached by telephone** to provide assistance to a team in difficulty
- On arrival, the animator corrects the roadbooks, discloses the **answers** to the questions in front of all the teams by adding a few historical details, announces the **ranking** of the teams and **rewards** the participants: **1 traditional heart-shaped gingerbread for all participants** and **1 bottle of Alsace wine from a small producer for each member of the winning team**
