Il était une fois LA VILLE

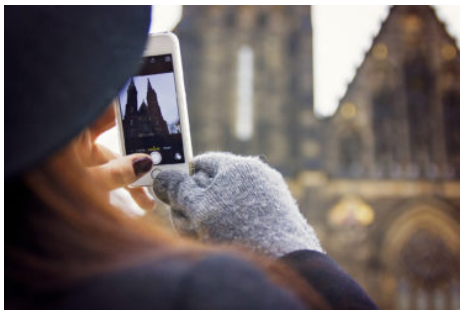

Le créateur de jeux de piste en Alsace

PRIVATE PERSON

CityQuizz©

CityQuizz© is an innovative mobile application that allows you to discover a city through treasure hunts that stimulate the sense of observation!

There are several CityQuizz© accessible to everyone, young and old, and available in French, German and English:

- **STRASBOURG** in the historic city centre, in the Neustadt district, around the European institutions, and... the traditions of a Christmas of yesteryear in Alsace
- **OBERNAI** in the historic city centre and on the traditions of an old-fashioned Christmas in Alsace
- **COLMAR** in the historic city centre
- **EGUISHEIM** in the historic city centre
- **KAYSERBERG** in the historic city centre

And very soon other courses in the process of being created!

Each CityQuizz© is designed as a treasure hunt, punctuated by stops to discover essential monuments, curiosities and unusual places.

At each step, a simple, quick and precise historical description, an observation question with the answer nearby, and 3 proposed answers to facilitate research!

The correct answer is then revealed, along with an explanation that makes the subject no longer has any secrets!
